

MUD FLAT MANIA AT OCEAN EDGE  
WITH NATURALISTS FROM  
CAPE COD MUSEUM OF NATURAL HISTORY

[Brewster beaches](#) boast gentle surf, soft sand, warm water and a beach that changes dramatically changes in appearance every few hours. At low tide, explore the notorious “Brewster flats” at Ocean Edge Resort with naturalists from the [Cape Cod Museum of Natural History](#) who know their stuff and learn about the world of marine invertebrates. Wearing water shoes and carrying pails and shovels we’ll walk the sand bars, mudflats and tidal pools to find and observe the marine animals living there – clams, worms, crabs, sea cucumbers and other sea life. Appropriate activity for the whole family and beachcombers ages 5 and up.
